SUMMARY

I've got hooked with programming right after I found an old ZX Spectrum and some Basic books during school. I'm a strong full-stack developer, but always excited to try myself in something new. Passionate about functional languages, semantic web and programming in general.

PRIMARY SKILLS

Graphql, React, Relay, Apollo, HTML, CSS/Less, XML/XSLT, Nextjs

Nodejs, JavaScript ES9, TypeScript, Flow

Postgresql, Mongodb, Couchdb, MySql

Linux, Docker, Kubernetes, AWS, Serverless

Jest, CI/CD, git, bash

EXPERIENCE

Stridist   April 2020 - Present
Senior FullStack Developer

An application for fitness coaches. The most interesting part is curriculum builder that required building an advanced Notion-level editor on slatejs with a many domain-specific blocks. Built using React/Relay/Graphql/Material UI/Capacitorjs and Nodejs/Postgresql/Knex/Firebase/Google Cloud(Cloud Functions/Storage/).

Newlane reality   February 2020 - April 2021
Senior FullStack Developer

Complete rework of old version of a web-app previously built on wordpress. New app was built with React/Apollo/Graphql/Bootstrap and Nodejs/Mongodb/Redis/Nextjs

Arbitragesuite   2017 - 2018
Team Lead

An automated trading between various marketplaces. Challenge was to meet high reliability requirements with extensive data processing (around 100Gb per day) from unreliable data providers. React/Graphql/Relay/Nodejs/RabbitMQ/Redis/Postgresql/Mongodb/Kubernetes/AWS (Lambda/S3/Api Gateway/Cloudfront/CloudFormation/EC2/Route 53)

Teeprofitspro   2013 - 2015
Team Lead

A printing company that was competing with teespring: regular e-commerce, integration with various printing vendors, payment system, tools allowing sellers their own websites, svg editor and art marketplace, etc. Javascript/Nodejs/Mongodb/Kubernetes/AWS (Lambda/S3/Api Gateway/Cloudfront/CloudFormation 53)

ClientConnect   June 2012 - January 2013
Team Lead

Internal bank software, which lets them find, monitor and engage with company-related activity in social network in real-time, hooked into bank PR desk.

Isureon   2012 - 2014
Team Lead

A startup company innovating insurance market with a goal of perfecting experience for clients. Javascript, Erlang, Nodejs, Couchdb

MapReduce ltd.   January 2011 - January 2013
Team Lead, Co-founder

· A tiny for-fun software-development company. Sole purpose was to fund our experiments with erlang, couchdb, nodejs, haskell, rdf/owl, graph databases and other new tech we could find.

umisoft   February 2007 - May 2010
co-founder, CTO

· We developed CMS (PHP, MySql, XML/XSLT), which climbed from zero to 2nd place on Russian and exUSSR market in less than 3 years. I was responsible for hiring and managing development team, product design, educational lectures and seminars, tech documentation.

umistudio   June 2004 - February 2007
Web developer

· Websites development using Perl, PHP, Mysql, HTML and CSS.

EDUCATION

ITMO University, Saint-Petersburg   *2003 - 2006*
Computer Control Systems / Computer Systems Design
